Ready for a change? There are several animal welfare conferences, but there is only one conference with one, single objective: teaching you exactly how to save more lives. The American Pets Alive! Conference was started with a clear purpose. In just three days, attendees can learn what otherwise may take months or years. At AmPA!, you'll leave with detailed, proven strategies to stop killing in your community. Whether you're a shelter director or employee, a volunteer, foster or community advocate, you'll go home with the tools and knowledge to make immediate change. Ringworm and mange? FeLV and FIV? Parvo puppies? We'll show you how to save them all. Don't know what to do with your dogs with behavioral challenges? Need help with managing seasonal or disaster related space crises? We have the answers. Here in Austin, we have the benefit of five years of proven No Kill Success under our belts and at AmPA!, you can take our lessons learned and apply them in your own community. Have questions? Email - info@americanpetsalive.org Thank you to the Ron Fletcher Estate, Maddie's Fund, and Best Friends for supporting AmPA!
