Invitation

Corinium's position in the market as the leading conference provider in the data and analytics space means that we've developed a unique, extensive network of senior leaders. Drawing on feedback from these connections, we've developed CDAO APEX, an exclusive gathering of Data and Analytics Leaders from the country's largest institutions.

CDAO APEX is set apart from traditional conferences or tradeshow because of its focus on bringing together the crème de la crème of the data and analytics world for valuable networking truly peer-to-peer level and intellectual content. Our extensive understanding of the market and in-depth research results in a conference program designed to engage our attendees. Only a limited number of specially selected C-Suite, VP and Director level Fortune 1000 leaders are invited to attend, together with solution providers with the most cutting-edge capabilities.

Valuable networking opportunities, case studies and workshop-style sessions, together with consultative pre-arranged one-to-one business meetings between attendees and carefully chosen solution providers are woven throughout the three days, allowing those in attendance to really connect and share ideas at the highest strategic level.

This really will be an exceptional and valuable event, with key takeaways that are indispensable and unmatched for both Data and Analytics Leaders and Solution Providers.
